

I am writing to let you know how much I benefit from listening to KLOVE 89.7 in Salt Lake City. This station is broadcast from Northern California, and is without a doubt the most comprehensive and current Christian station that I have found. I have been listening for about 8 years. It is contemporary, provides me with all the current national and world news, and has replaced my TV. It is the endorsed radio station for not only my church, but many other churches in this valley. By listening to this station, the Christian community is united not only here in Salt Lake City, but together with like minded individuals literally around the world. This brings hope and peace to our souls. There are no other stations that provide us with these benefits, should KLOVE be displaced by an LPFM. Thank you.
